NURSERY STOCK

Attention is respectfully called to the stock of Hardy Ornamental Trees, Shrubbery and Climbing Vines herein offered. Although not a large stock, it is carefully selected and embraces those varieties which experience has shown to be best adapted to this climate. The fact it is acclimated at the seashore, is important to those who contemplate planting in this vicinity. The prices will be found to compare favorably with those of other and larger nurseries. Special prices on large orders.

Anything not included in this list will be furnished at the lowest price consistent with first class stock.

Visitors are cordially invited to inspect our nursery on Locust street, which, although not large, contains a choice collection of trees, shrubs and herbaceous plants, acclimated here.

In our new nursery on Lakeview avenue, we have several thousands of young trees and shrubs, also a fine assortment of fruit stock well worth your inspection.

The Commonwealth of Massachusetts.

STATE BOARD OF AGRICULTURE.

Boston, August 30, 1915.

Official Certificate No. 77.

TO WHOM IT MAY CONCERN:

THIS IS TO CERTIFY that I have this twenty-third day of August, completed the inspection of the nursery stock of **H. V. Lawrence**, grown at Falmouth, State of Massachusetts, and find it to be apparently free from all injurious insects and diseases which might be transferred on nursery stock from the nursery to the orchard or garden.

This certificate is good until July 1, 1916.

(Signed) **H. T. FERNALD**, Inspector.

Inspected by **L. H. Taylor**.
